CHICAGO WEEK 2028

Steamboat

FEBRUARY 26 – MARCH 4

Steamboat is a complete mountain range: Mount Werner, Sunshine Peak, Storm Peak, Thunderhead Peak, Mahogany Ridge, and Christie Peak. 3,741 acres of permitted terrain offer a diversity of trails for all levels of ability. Gladed areas of Mahogany Ridge, Sunshine and Storm Peak are Steamboat's particular claim to fame, with legendary Champagne Powder® snow in the trees for the most avid powder hounds.

The new Wild Blue Top-to Bottom Gondola is the longest and fastest 10-person gondola in North America. This state-of-the-art gondola will feed skiers/riders through a newly created mid-station adjacent to Bashor bowl with the final destination at the top of Sunshine Peak.

At a total length of 3.16 miles, the new gondola has increased the out of base capacity from 6,000 people per hour to 10,000 people per hour, getting skiers from bottom to top in 13 minutes.

MOUNTAIN FACTS

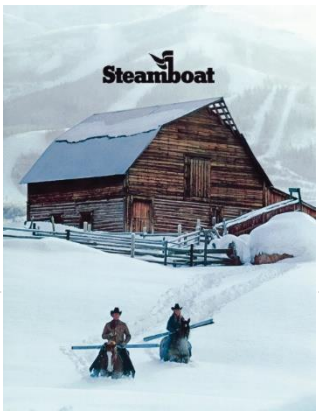

Summit Elevation: 10,568 ft
Base Elevation: 6,900 ft
Vertical Rise: 3,668 ft

SKI AREA

Skiable Acres: 3,741
